DELI SPICES FLOORS, SOUTH AFRICA

FLOORING: Sikafloor® PurCem® HM-20

BUILDING TRUST

DELI SPICES FLOORS, SOUTH AFRICA

PROJECT DESCRIPTION

Project name: Deli Spice Floors
Location: Cape Town, South Africa
Construction year: 2013

Deli Spices is a producer of spices, soups and marinades located in Western Cape in South Africa. The company invested on a new production facility in Cape Town.

PROJECT REQUIREMENTS

The main requirement from the client for the floor was the suitability for the food manufacturing environment. The floor should be hygienic and easy to clean. Secondly it has to offer extremely good durability and resistance against impacts, chemicals and hot liquids.

SIKA SOLUTIONS

Flooring system and product: Sikafloor®PurCem®HM-20, Sikafloor®-29 PurCem® (coving)

Sikafloor®PurCem®HM-20 is a seamless and tough system which is extremely resistant to common stresses found in food and beverage industry environments. The client was convinced by the long track record of the PurCem® hybrid technology. In addition an important reason for the client's positive decision was the competent site service offered by Sika.
